Session-2025-26

| Week | Topics |
|------|--|
| 1 | Chapter-1 Finite difference operators & their relations & related questions |
| 2 | Finding the missing terms & effect of error in a difference tabular values and related questions. |
| 3 | Chapter-2 Interpolation with equal intervals: Newton's forward & Newton's backward interpolation formulae and related questions. |
| 4 | Chapter-3 Interpolation with unequal intervals: Newton divided difference, Lagrange's Interpolation formulae, Hermite formula related questions. |
| 5 | Discuss the problems related to the chapter-1, 2,3 and Test . |
| 6 | Chapter-4 Central differences: Gauss forward and Gauss backward interpolation formulae, sterling, Bessel formula related questions. |
| 7 | Chapter-5 Probability distribution of random variables, Binomial distribution and related questions. |
| 8 | Chapter-6 Numerical Differentiation: Derivative of a function using interpolation formula (Newton's forward, Newton Backward, sterling, Bessel, Newton's divided difference formula related questions. |
| 9 | Chapter-7 Eigen value problems: Power method, jacobi's method, Given's method, House holder method, QR-method, Lanczo's method related questions. |
| 10 | Chapter-8 Numerical Integration: Newton Cote's Quadrature formula, Trapezoidal rule, Simpsons one-third and three-eighth rule, Chebychev formula, Gauss Quadrature formula related questions. |
| 11 | Chapter-9 Numerical solution of ordinary differential equations: Single step method-Picard's method, Taylor's series method, Euler's method, Runge-Kutta |

| | Methods, Multiple step methods, Predictor-corrector method. Modified |
|----|--|
| | Euler's method, Milne-Simpson's method and related questions. |
| 12 | Discuss the problems related to the chapter-8, 9 and Test. |
| 13 | Revision |
